

Oil Spill & Sheen Recovery Booms & Skimmers

- Removes or Reduces Sheen
- Does not absorb water
- Transforms pollutant into a stable solid waste
- Oils will not leak or leach

Triple Line Skimmer

- Improved safety -
No dewatering of oily water after removal
- Capable of remaining completely bouyant, even after being saturated

Absorbent Boom

- Longer life - will not deteriorate in water
- Products can be deployed long term and removed when convenient
- Reduced risk - No water absorbed, means less weight to pull from water

Passive Skimmer

- Effective Long Term Tool
- Perimeter protection outside of containment booms
- Shoreline Protection
